For: **Rapid Prion-Detection Device, System and Test Kit**

COMMUNICATION

Commissioner For Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

While preparing a recent response to the U.S. Patent and Trademark Office, counsel for Applicants realized that several documents had been previously submitted to the PTO with an incorrect application number. All else (title, inventors, filing date, etc.) was correct. Out of an abundance of caution, we are herewith providing copies of the following documents, wherein the application number has been corrected by hand:

1. Postcard, Information Disclosure Statement and Form PTO-1449, submitted January 17, 2002;
2. Postcard, Response to Missing Parts and Declaration (had correct number), submitted January 17, 2002;
3. Postcard, Information Disclosure Statement and Form PTO-1449, submitted February 25, 2002;
4. Postcard (had correct number) and Status Inquiry, submitted January 31, 2003;
5. Postcard (had correct number), Second Information Disclosure Statement and Form PTO-1449, submitted June 2, 2003;
6. Postcard (had correct number), Third Information Disclosure Statement and Form PTO-1449, submitted July 9, 2003.

Counsel for Applicants respectfully requests the PTO to make the attached documents part of the record for Application No. 09/992,533.

Respectfully submitted,

Dated:

*2 August 2004*
